Salé, Morocco

SOFT SKILLS

- Organization and analytical thinking
- Teamwork and adaptability
- Ability to learn independently
- Determination and perseverance
- Curiosity and adaptability

LANGUAGES

- Arabic: Native
- French: Fluent
- English: Intermediate

INTERESTS

- Fashion
- Philosophical writing
- Poetry
- Travel

PROFILE

Second-year preparatory student at EMSI in Rabat, passionate about computer science and known for my determination and perseverance. Eager to develop my technical skills, I aim to grow in the field of information systems engineering.

EDUCATION

- **2024- Present** **EMSI – Moroccan School of Engineering Sciences, Rabat**
  Preparatory Cycle (in progress)
  Computer Engineering and Networks
  Key Modules: Algorithms, Introduction to Artificial Intelligence, Programming Languages, Databases, Applied Mathematics, Automation and Industrial Control, Digital Circuits
- **2023-2024** Baccalaureate – Mathematical Sciences A

INTERNSHIP

- **Summer 2025** **Observation Internship – FARASHA SYSTEMS, Rabat**
  Exploration of drone applications in surveillance and inspection, as well as their general operation.

ACADEMIC PROJECTS

- **Text Processing Application in C**

Developed a console-based application with an interactive menu for creating, editing, and managing text files.

- **LifeMap EMSI Website**

Designed and developed an HTML/CSS website to assist EMSI Rabat students in finding accommodation and study locations.

- **Smart Parking Management System (Arduino)**

Designed an automated parking management prototype using sensors to detect and optimize available parking spaces.

SKILLS

- **Programming:** C, HTML, CSS
- **Databases:** MERISE, SQL
- **Electronics & Arduino:** Programming and control of electronic circuits
- **Industrial Automation:** Grafcet, Gemma
- **Circuits:** Digital, electronic, and analog
- **Mathematics:** Analysis, probability, descriptive statistics
- **Artificial Intelligence:** Basic knowledge
